

WHY USE A LOCAL MANUFACTURER?

- 1. Microcare has been manufacturing solar electronic components in Port Elizabeth for 25 years**
- 2. Microcare is a proudly South African and fully BEE compliant company**
- 3. Support the local economy and not overseas economy**
- 4. No other supplier of solar electronic components in South Africa is able to:**
 - offer technical support in real time,**
 - offer the repair support from the factory,**
 - manufacture solar electronics for African conditions.**

WE THINK LOCAL BUT ACT GLOBAL!

Microcare is the only company in South Africa to design, develop and manufacture solar MPPT Regulators, Pure Sine Wave Bi-Directional Inverters, Grid Tied Inverters and the unique Grid Tied Limiter.
