## 0.75kW SINGLE-PHASE SOLAR PUMPING KIT

Microcare Single & Three-Phase Solar Pump VSD Inverters & Controllers are designed to provide power for remote applications of motors & pumps. Driven by locally developed innovation the unit is a Maximum Power Point Tracker (MPPT) facilitating maximum power generation for efficient usage. With its variable speed control and flow switch input the unit is able to offer a true Solar Pump Inverter capable of producing high efficiency levels. The unique built in overdrive feature allows for easy PV string combinations and a lower PV voltage operation when compared to other Pump Inverters on the market.

## 0.75kW Single-Phase Solar Pump Kit includes:

### Microcare VSD Solar Pump Inverter

With its variable speed control and flow switch input the Microcare Solar Pump Controller/Inverter offers a true Solar Pump Inverter capable of producing high efficiency levels. The unique built in overdrive feature allows for easy PV string combinations and a lower PV voltage operation when compared to other Pump Controllers/Inverters on the market.

4 x 300W High Voltage PV Panels

1 x Male & Female MC4 Connector

10m x 6mm<sup>2</sup> Red Solar Flex Cable  
10m x 6mm<sup>2</sup> Black Solar Flex Cable
