

MICROCARE AC EV CHARGER

with **Dynamic Charging**
& **Multi-Station Add-ons**

- ✓ **Variable Charging Speeds**
Automatically adjusts based on available solar power & grid capacity
- ✓ **Prevents Overloads**
Stays within your solar & grid limits
- ✓ **Adapts to Available Power**
Works with available solar & grid capacity
- ✓ **Smart Power Sharing**
Multiple chargers can communicate & share power

CONVENTIONAL EV CHARGERS

Basic charging with
limited smart integration

- ✗ **Fixed Charging Speeds**
Charges at a fixed rate regardless of available power
- ✗ **Prone to Overloads**
Can easily exceed your solar & grid limits
- ✗ **Can Exceed Available Capacity**
More likely to overload your solar or grid connection
- ✗ **Poor for Multi-EV Charging**
2 vehicles charging at once can place too much demand on the system
